## **DETAILED ACTION**

## Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

**Group (A)**, Claims 1-2, drawn to a composition comprising HMG-CoA reductase inhibitor.

**Group (B)**, Claims 7-13, drawn to a method for treating coagulation disorder with said composition.

The inventions listed as Groups A-B do not relate to a single inventive concept under PCT Rule 13.1 because, under PCT rule 13.2, they lack the same or corresponding special technical features for the following reasons: The technical feature linking groups A and B appears to that they all relate to anti-thrombotic effects of HMG-CoA reductase inhibitor that is useful for the treatment of coagulation disorder. However, the use of HMG-CoA reductase inhibitor as anti-thrombotic agent that is useful for the treatment of coagulation disorder is known in the art (US 5084482; Dermot Kearney and Desmond Fitzgerald (Journal of the American College of Cardiology, Vol. 33, No. 5, 1999, pages 1305-1307; Anetta Undas et al. (Circulation, vol. 103, 2001, pages 2248-2253)). Therefore, the technical feature linking the inventions of groups A-B does not constitute a

Art Unit: 1614

special technical feature as defined by PCT Rule 13.2, as it does not define a contribution over the prior art. Accordingly, Groups A-B are not linked by the same or a corresponding special technical feature as to form a single general inventive concept.

2. Applicant is required under 35 U.S.C. 121 to elect <u>a single disclosed species</u> from "HMG-CoA reductase inhibitor", for example "(+)-(3R,5S,6E-7[2-cyclopropyl-4-(4-fluorophenyl)-3-quinolinyl]-3,5-dihydroxy-6-heptenoic acid", under the instant claims of the elected Group. Moreover, whatever specific compound is ultimately elected, applicants are <u>required to list all claims readable thereon</u>.

With the election of a specific exemplified compound, a generic concept will be identified by the examiner as the inventive group for examination.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

- 3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a

request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Brian Kwon whose telephone number is (571) 272-0581.

The examiner can normally be reached Tuesday through Friday from 9:00 am to 7:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Ardin Marschel, can be reached on (571) 272-0718. The fax number for this

Group is (571) 273-8300.

Any inquiry of a general nature of relating to the status of this application or

proceeding should be directed to the Group receptionist whose telephone number is (571)

272-1600.
